Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
"I often forget my doctor appointments." "Managing my medicines every day is difficult." "I wish I had one application to store all my medical records." "I want reminders before my appointments and	☐ "What if I miss an important medication?" ☐ "I hope my health records are stored safely." ☐ "I need an easy way to track my appointments." ☐ "AI should help me understand my medical reports." ☐ "A single healthcare application would save me time."

medication times." "Medical reports are difficult to understand."		
	PERSONA NAME <i>Patient (Healthcare User)</i>	
DOES ☐ Schedules doctor appointments. ☐ Takes medicines based on doctor's prescription. ☐ Checks health records regularly. ☐ Uses reminder applications or phone alarms. ☐ Reviews AI-generated visit summaries and recommendations.		FEELS ☐ Worried about missing appointments or medications. ☐ Confused by complicated medical reports. ☐ Stressed while managing multiple health records. ☐ Happy when reminders help maintain treatment schedules. ☐ Confident using AI-powered healthcare recommendations.
