Project Name	RK Health – AI Smart Patient Appointment & Medication Reminder System
Maximum Marks	2 Marks

Data Flow Diagram

Create a Data Flow Diagram (DFD) to show how data moves through your system - between external entities, processes, and data stores. Use the symbol legend below as a guide.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	Patient, Doctor, Admin, Groq AI API, Twilio SMS Service, Google Calendar – External users or services that send or receive information from the RK Health system.
Rectangle with numbered header	Process	User Authentication, Appointment Management, Medication Reminder, AI Summary Generation, Health Report Generation – These processes receive input, process it, and produce outputs.
Rectangle (solid fill, no number)	Data Store	Google Sheets Database – Stores user accounts, appointments, medication schedules, health records, AI summaries, and reports for future retrieval.
Labeled arrow	Data Flow	Represents the movement of data such as Login Details, Appointment Information, Medication Data, Health Records, AI Requests, AI Summaries, SMS Notifications,

		Calendar Events, and Reports between users, processes, and databases..
--	--	---

Example

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.

(Groq AI API)
