Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
[Presentation Layer]	[Provides the user interface for login, dashboard, appointment management, medication reminders, AI summaries, and health reports.]	HTML5, CSS3, JavaScript
[API Gateway]	[Receives requests from the frontend, validates input, executes business logic, communicates with Google Sheets, and returns JSON responses.]	HTML5, CSS3, JavaScript
[Microservices]	[Implements authentication, appointment management, medication reminders, AI	[Google Apps Script, Groq AI API, Twilio

	<i>summary generation, report generation, and dashboard analytics. Integrates external service]</i>	<i>SMS API, Google Calendar API</i>
<i>[Database]</i>	<i>[Stores user information, appointments, medications, health records, AI-generated summaries, and reports in cloud storage.]</i>	<i>Google Sheets</i>
